FOR IMMEDIATE RELEASE

Work to Begin on US-26 in Bayard Area

Weather permitting, construction work is scheduled to begin the week of June 15 on US-26, from the US-26 and L-62A junction, 4 miles north of Bayard, to the US-26 and US-92 junction, 3 miles south of Bayard, according to the Nebraska Department of Roads.

Western Engineering Company, Inc. of Harlan, Iowa is the prime contractor for the \$6.1 million projects. Work includes concrete pavement repair, bridge repair, sidewalks and asphaltic concrete paving from Reference Post 41+73 to Reference Post 48+73.

Traffic will be maintained at a reduced speed with lane closures in the work area. The work is scheduled to be completed this fall.

The NDOR project manager is Russ Frickey. Motorists are urged to use caution while driving through highway work zones and to remember that fines are doubled when workers are present.
